## EXPLORE *The Trasimeno Land*

### Trekking Tours

Ready to spend a morning or an afternoon immersed in the beauty of Trasimeno Land?

If the answer is 'Yes', you only have to text me!

Do you need more details?

It's a 12KMS trekking tour (if you think that is a lot we can talk about it and think about another solution).

It is a low difficulty trekking tour, designed for those who are used to walking, but also for those who for the first time feel the need to break away from everyday life and immerse themselves in nature, surrounded by beautiful landscapes and lots of nature.

We will travel along white roads, small woods, olive groves, cycle paths, and then further and further down until Lake Trasimeno, where we can relax before returning to the starting point.

I can suggest you a very special restaurant in which you can have lunch after our tour.

So, text me a message! This is the best way to discover the beauty of Umbria.
